TREES • 2017

**Lovi Trees, Lovi Spruce Trees** and **Lovi Season Trees** add a little magic to public spaces, store displays, events and private homes.

Lovi products are 100% made in Finland, in Lovi's own factory, from the highest quality, PEFC **certified birch plywood**. The wood comes from Finnish forests, which are re-planted after felling. Additionally, Lovi supports re-planting schemes in areas of the world affected by drought, erosion and floods: **over 40 000 trees have been planted to date.**

The trees are **flat-packed** for easy shipping and quick to **assemble without any tools.**

**Lovi Ltd** is a family-run company based in Northern Finland. All products are designed and patented by Anne Paso.
